Work Boots

TINGLEY

Badger Boots

Ultra-comfortable Badger Boots™ are 100% liquidproof and feature breathable Neoprene uppers with extra width in the calf area for a more relaxed fit. A cushioned footbed helps absorb impact shock and a steel shank (in certain styles) provides added arch support when ladder climbing or digging with shovels. The high quality rubber outsoles are abrasion resistant for long life and will remain flexible in cold temperatures. A cushioned, removable insole helps wick moisture to keep feet warm and dry for optimum protection and extraordinary comfort.
