

33RD IEEE INTERNATIONAL CONFERENCE ON ROBOT AND HUMAN INTERACTIVE COMMUNICATION

IEEE RO-MAN 2024

Pasadena Convention Center, Pasadena, California, United States

August 26th to 30th, 2024

www.ro-man2024.org

The 33rd IEEE International Conference on Robot and Human Interactive Communication, RO-MAN 2024, is set in the vibrant city of Pasadena, California, USA, from August 26th to 30th, 2024. This premier event will showcase cutting-edge innovations and the latest developments in the dynamic field of Human-Robot Interaction, under the theme, "**Embracing Human-Centered HRI**", highlights our commitment to understanding human needs, designing robotic systems that people choose, and crafting genuine human-robot interaction experiences. Our collective efforts are focused on enhancing human quality of life, now and for future generations. Be a part of this exciting journey towards a future where technology harmonizes with human well-being.

Honorary General Chair

Maja Matarić United States

General Chairs

Huan Tan United States

Selma Šabanović United States

Program Chairs

Sylvain Calinon Switzerland

Fei Chen Hong Kong, China

Minsu Jang Korea

Marynel Vázquez United States

Local Arrangement Chairs

Ross Mead United States

Chengkun Zhang United States

Secretariat

Olivia Zhao United States

Publicity Chairs

Fanny Ficuciello Italy

Takayuki Kanda Japan

Ye Zhao United States

Important Dates:

Special Session Proposals:

Submission Deadline: **January 19, 2024**

Notification of Acceptance: February 2, 2024

Workshops & Tutorial Proposals:

Submission Deadline: **February 9, 2024**

Notification of Acceptance: March 8, 2024

Regular Papers, Special Session Papers:

Submission Deadline: **March 10, 2024**

Notification of Acceptance: May 10, 2024

Camera-ready Deadline: June 7, 2024

Late Breaking Reports:

Submission deadline: **May 17, 2024**

Notification of acceptance: June 7, 2024

Regular Papers: Prospective authors are invited to submit high-quality papers under the broad theme of human-robot interaction.

Special Sessions: Prospective special session organizers are invited to submit proposals for focused discussions. Papers presented will be included in the conference proceedings.

Tutorials and Workshops: Applied research and applications, on-going work, and tutorials on research tools are encouraged to be presented to RO-MAN attendees.

Late Breaking Reports: Prospective authors are invited to submit their recent innovative applications and work-in-progress reports to designated interactive sessions.

Exhibition Sessions: RO-MAN offers an excellent opportunity for industrial players to showcase their most recently innovative products and services.

Robot Design Competition: Designers and engineers are encouraged to submit innovative robot designs. Winners will be awarded based on the novelty, impact, and user experience.
