What is STRAVIS?

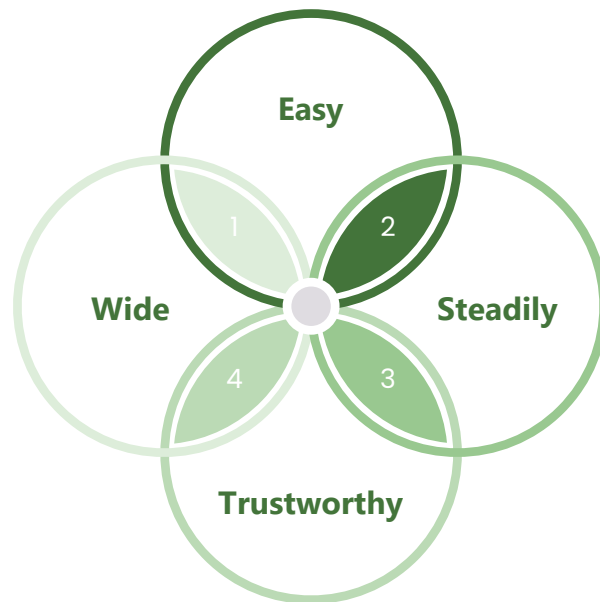

STRAVIS is a consolidated accounting system that totally covers the consolidated accounting business of a globally expanding corporate group from data collection to execution of consolidation processing.

Why Do We Need STRAVIS?

Wide-reaching Reliability

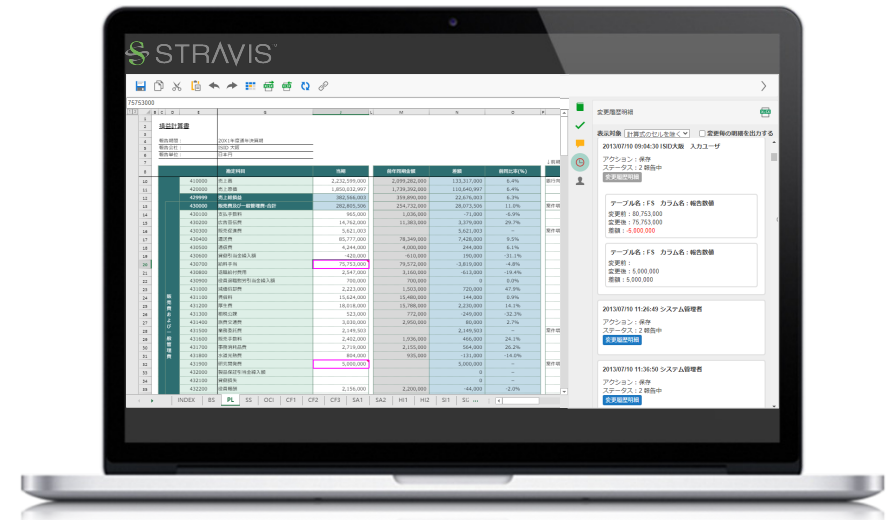

Guiding consolidated accounting business with Steady IT solutions and Easy-to-Use Interface

- Easy implementation and maintenance after going live (no customization required for 99% of customers)
- Operates steadily and reliably after going live
- (Two version software updates yearly, along with seminars and both online and offline support)
- Trustworthy software and consulting supported by CPA expertise, trusted by 950 companies.
- From senior to junior staff, Europe to Asia, and parent company to all subsidiaries, simple UI is for all.

Excel-Like Simplicity

Effortless Access to User-Friendly Dashboards and Excel-Style Inputs, Anywhere

What We are Going to Overcome Together

We are here to resolve the dilemmas faced by every stakeholder.

Accounting

- Easy to operate, just like in Excel.
- All consolidation processes with subsidiaries are streamlined into one.
- Timely operations for closing and opening accounts.

Parent and Subsidiaries

- Seamless communication within the same cell.
- Easy integration with the current spreadsheet formats.
- No need to track emails anymore.
- Support for multiple languages.

Audit

- Auditors access the system directory with appropriate access controls.
- Eliminate unnecessary communication for obtaining evidence.
- Conduct audits in a timely and transparent manner.

Executive

- Make sure everything is transparent and follow strict rules like the SOX to keep things in check.
- Monitor progress and ensure timely accounting across all your companies.

Collaborative Success Comes for You

STRAVIS offers us a wide range of achievements. From improving operations to further collaboration, seamless communication, and valuable insights, the possibilities are endless.
