Dirt Fix Releases Preliminary Course Information for the 2024 Boulder City Enduro

Boulder City, NV – We are excited to announce that the course has been approved for the upcoming Boulder City Enduro on October 5th, 2024. In our course design efforts, we attempted to capture the essence of Bootleg Canyon, while also aligning the physical and technical requirements of the course with the expectations of each category. Today, we are releasing preliminary course information:

Elite:

- Distance: ~20 miles
- Climb/Descent: ~3,500 ft
- # of Stages: 5 (be prepared for two stages down the face)

All Other Categories:

- Distance: ~15 miles
- Climb/Descent: ~2,500 ft
- # of Stages: 4 (no stages down the face, but will share three stages with the Elite course, and include one stage of its own)

All course information is preliminary, Dirt Fix reserves the right to make changes to the course at its sole discretion. All course information is approximate, actual distance and climb/descent measurements may vary.

For more information about the Boulder City Enduro follow our social media profiles ([Instagram](#) and [X](#)) and visit our website at <https://www.dirtfixco.com>.

Dirt Fix

At Dirt Fix, we eat, sleep, and breathe all things mountain biking. We strive to share and inspire others to join the cycling community through event organization, event promotion, and media coverage.
