

# SHELFIE STORAGE

NEW GENERATION OF SELF-STORAGE

Stadsfeestzaal, Antwerpen

We created self-storage experience that works for the customers, not the other way, hence picked the stunning Stadsfeestzaal in heart of Antwerp as our first location – a place that people know well and visit often.

We removed all the administrative burden of renting a storage box - no padlocks, no paper contracts or deposits, to make sure that our customers can book their extra space as easily as they book an Uber.

Our pricing is transparent, and booking can be completed in few clicks online, with same day move-in. We replaced the old-school padlocks with electronic locks operated via Shelfie App. Finally, we designed the interiors to make them as homely as possible – opposite to the out-of-town warehouses of our competitors.

# STADSFEESTZAAL ANTWERP

## The Building

Now home for the first Shelfie Storage, this former Antwerp festival hall is a listed historical building situated between Hopland and Meir, Antwerp's most popular shopping street. The imposing 19th century neoclassical building was restored after a major fire in 2000. It is now a shopping hot spot and meeting place in the Antwerp city centre with four levels of fashion, leisure and gastronomy.
