

2024 GOLF & DRESS COLLECTION

BUCKLE UP. WE'RE CHANGING THE WAY YOU BELT.

For centuries of men, the belt was meant to keep your pants up.
And it's buckle shut.

For soldiers? Reliable & bland.
For businessmen? Match your shoes. Or else.

In every situation, its job was to follow their rules.
So much potential lost.

A modern belt should be subtle and loud.
Functional and comfortable.
Stylish and secure.
And most importantly, fit like it's part of your body.

Because how you carry yourself, and what you carry, is who you are.
This is our view. And it's woven into every ratchet belt we make.

We invite you to be free from a one-sided history.
And feel like yourself. In any situation.

INSTRUCTIONS

Instructions

Assembly:

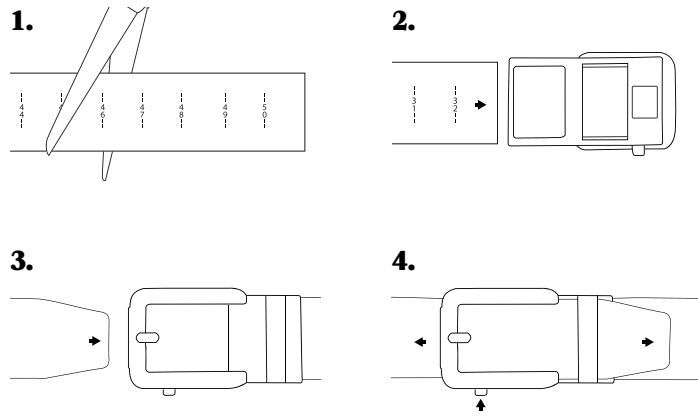

Achieve the perfect fit by adding 2" to your pant size using the scale on the backside of the belt. Trim any excess length with scissors. Then, feed the end of the belt into the back of the buckle and secure the clasp via latch.

To Wear:

Slide the belt into place and listen for the ratcheting (clicking) sound. Remember, there's no need to over-tighten.

How to Release:

Use one hand to push the belt towards the buckle, allowing some slack while holding the strap. With your other hand, press and hold the release button/lever. Effortlessly slide the strap out of the buckle while pressing the release button.
