

sQuid SchoolPay

sQuid and your school: improve efficiencies, increase revenues and provide a great online parent experience!

Handle online payments for trips and offers, bookings for clubs and events, reporting and parent communications with an all-in-one simple, secure and reliable system.

sQuid SchoolPay: the smart choice for school payments

- **Innovative and secure income management solution**

Secure end-to-end online payment platform. Choose from a combination of sophisticated management modules that integrate seamlessly with your MIS and with each other to suit your needs and fit your budget.

- **Ground-breaking trips, offers and bookings management features**

Create and manage bookings for school clubs, activities and events. Waiting list capability for trips and bookings. Map bookings to venue capacity. Save time by cloning existing offers and bookings. Issue bulk subsidies.

- **Flexible payment options and funds management**

Accept childcare vouchers for payments for offers, school clubs or other activities. Process partial refunds and take on-site payments. Parents can set automatic top-ups and request refunds.

- **Finance tools to reduce school admin time and costs and increase income**

Eliminate cash processing. Weekly settlement - sQuid processes all transactions and settles direct to nominated bank accounts. Third party invoicing feature, e.g. for customers renting school space.

- **Extensive reporting, across multiple sites**

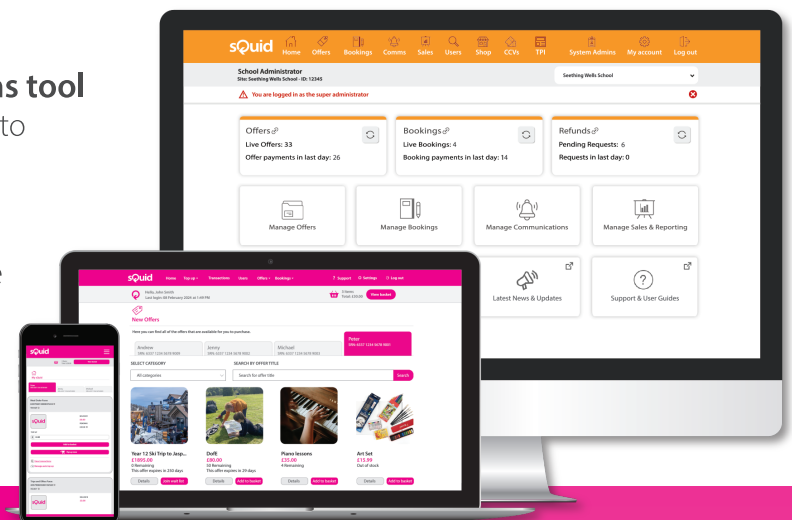

Run, access, download and export reports for income collected, outstanding payments and much more. Manage multiple school sites with one login, running simultaneous reports across all.

- **Advanced, multi-platform communications tool**

Send personalised texts, emails or printed letters to communicate with parents, staff or students.

- **Hassle-free switching, unrivalled support**

We handle the entire process if you currently use another payment system. Comprehensive training and ongoing support for school administrators, and first line local customer support for parents.

sQuid: complexity made simple!

“
Thank you
for making
my job 10
times easier!
”

Schools say...

I would recommend sQuid to anyone!

We became a cashless school a few years ago and find sQuid invaluable. Parents seem to find sQuid easy to navigate and it means we have no missing payments, and the system makes it easy to chase those parents who have not paid for offers. We utilise the system not only to receive payments but to gather consent information for trips, order uniform, to sign up for sporting events and clubs and to pay for wrap-around care. It has saved a good deal of admin time recording payments, as the system allows us to run reports. I would recommend sQuid to any school looking to become cashless.

School Business Manager, Primary School, London

Thank you for making my job 10 times easier!

Gary was so super helpful! All documents and information I asked for, he provided, even completing the task for me, when I could easily have done it myself, but he kindly offered.

School Administrator, Secondary School, London

Parents say...

We have a result!

This is the way forward, thank you. So I've been on, it's actually really easy to use. Especially if payments are being made weekly. I added a week's worth of meals and care, then a week's worth of sessions to my basket with no problem at all.

Parent, Primary School, Nottinghamshire

Tech query resolved in 5 minutes!

I raised a tech query with customer service via email. To my surprise, I received a response and the tech query was resolved within 5 minutes (yes, 5 minutes). Based on that experience, I can only recommend sQuid.

Parent, Secondary School, Nottinghamshire

CASE STUDY

Exmouth
Community
College

Exmouth Community College had been looking to go cashless in order to save administration time in the school office and reduce cash-handling costs

sQuid's solutions ticked all the boxes for fulfilling their requirements, while parent reaction was overwhelmingly positive, as they looked forward to an easier, more efficient and safer way of paying for their children's school meals, trips and other offers.

“Having sQuid as a feature has improved efficiency for the college, parents and students alike. Being cashless and using the system has noticeably freed time.” Staff member, ECC
