

# Whaly 435R

## Length: 14' 3" Width: 5' 8" 440 lbs 40hp

### Professional Dependability

- The Whaly 435R is a favorite among Search & Rescue entities; it bounces off rocks and debris, can be carried/moved by 4 people, has a wider, higher bow for easy plane and smooth ride without splash in the boat.
- The production of Whaly "R" Professional models include an additional inner layer of foamed polyethylene throughout the boat, enhancing the structural integrity.
- A sturdy stern bench serves as an ideal solution for storing a fuel tank while also providing extra seating.
- The deck is designed with a built-in drainage channel for efficient water management and conveniently accommodates cable storage.
- Contains built in storage/anchor locker in bow.
- The 435R is not self bailing.
- The 435R has less freeboard (distance from the waterline to the gunnel - top of boat), which makes it easier to enter or exit the boat.

#### USCG Maximum Capacities

#### 435R PRO

**5 PERSONS OR 613 POUNDS**

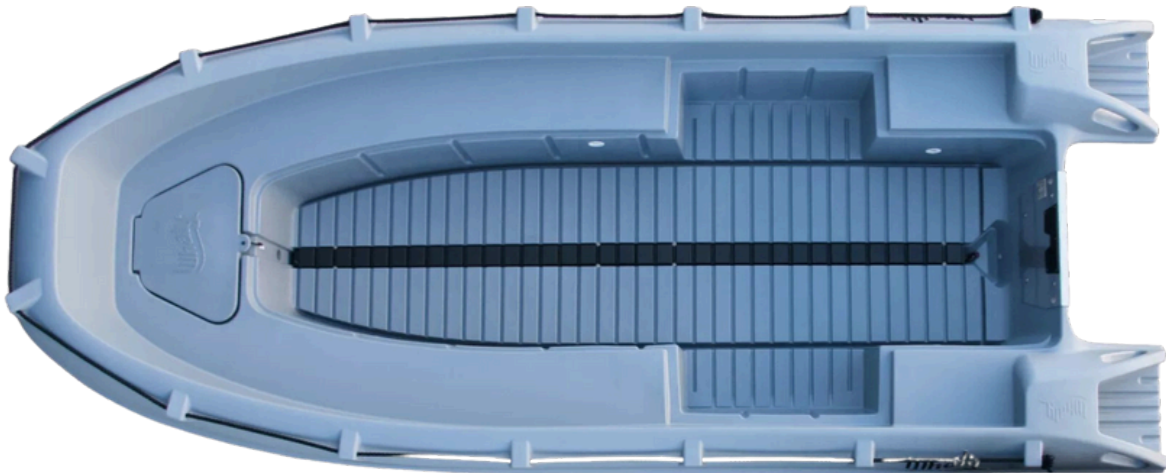

**1072 LBS: PERSONS, MOTOR, AND GEAR**

**40 HP**
